A quick overview of the addition of the numbers 0 to 9:

Adding zero 0 does not change anything.

$0 + 0 = 0$, $0 + 1 = 1$, $0 + 2 = 2$, and so on, until $0 + 9 = 9$.

Adding one 1 gives you the next number:

$1 + 1 = 2$, $1 + 2 = 3$, $1 + 3 = 4$, $1 + 4 = 5$, $1 + 5 = 6$, $1 + 6 = 7$, $1 + 7 = 8$,
$1 + 8 = 9$, $1 + 9 = 10$ ten.

Adding two 2:

$2 + 2 = 4$, $2 + 3 = 5$, $2 + 4 = 6$, $2 + 5 = 7$, $2 + 6 = 8$, $2 + 7 = 9$,
$2 + 8 = 10$, $2 + 9 = 11$.

Adding three 3:

$3 + 3 = 6$, $3 + 4 = 7$, $3 + 5 = 8$, $3 + 6 = 9$, $3 + 7 = 10$, $3 + 8 = 11$, $3 + 9 = 12$.

Adding four 4:

$4 + 4 = 8$, $4 + 5 = 9$, $4 + 6 = 10$, $4 + 7 = 11$, $4 + 8 = 12$, $4 + 9 = 13$.
